Please Read the Following Before Ordering

No matter how far from New York you reside you can shop by mail at Vantine's with the same assurance of satisfaction as though you personally purchased in our store.

We employ a force of experienced clerks whose sole duty is to attend to the wants of our out-of-town customers, and all orders with which we are favored have our prompt and careful attention.

After you have selected the articles you wish, detach an order blank from the back of this book, fill in your name, address, the catalogue numbers and descriptions of the articles desired and forward it to us accompanied by a money order or your personal check, enclosed in the self addressed envelope which you will find herewith. (An additional supply of both order blanks and envelopes may be had free, upon request.)

Every article contained in this book is faithfully illustrated or accurately described, and backed by the Vantine guarantee to be exactly as represented. Notwithstanding, we shall cheerfully exchange, credit or promptly refund on any article purchased from us which is not perfectly satisfactory, provided you forward it to us within three days after you receive it, and it is delivered to us in a saleable condition.

Our terms are cash with order, with one price to all, but we shall be pleased to open charge accounts when satisfactory business references are supplied.

We have no agents, give no commissions, allow no discounts and sell no goods on consignment. With the exception of certain perfumes and toilet requisites, the sale of all articles illustrated and described herein is confined to our own stores.

Being so far removed from the Orient, the source of our supply, our stock, although almost endless in variety, is necessarily limited in quantity. We prefer therefore not to ship on approval.

With the exception of Oriental delicacies, chinaware, furniture, lamps and screens we prepay the transportation charges on every article illustrated or described in this book—whether or not it is catalogued “prepaid”—*provided your order amounts to \$1 or over.*

As the postage or expressage on orders of less than \$1 is paid by the purchaser and the expense of packing, etc., is often as great as on orders amounting to \$1, it is to our mutual advantage to make the order amount to at least \$1.

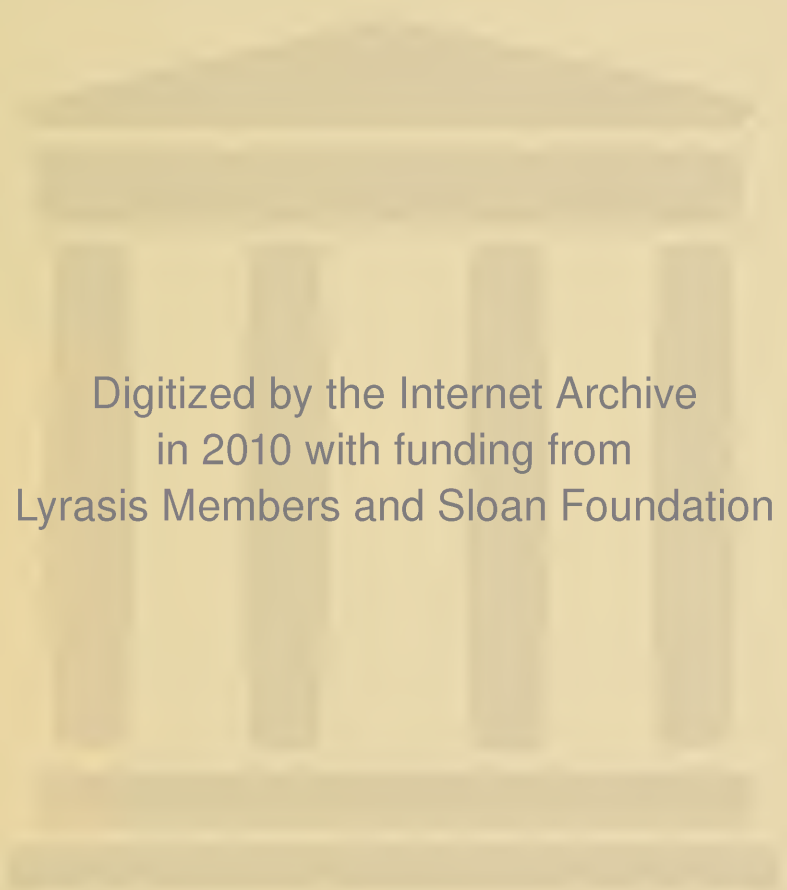

If you fail to find exactly what you wish in the following pages simply write us and we shall promptly and cheerfully furnish full information regarding any Oriental article in which you may be interested and where possible submit photographs.

The prices quoted herein supersede those in all previous catalogues and are subject to change without notice.

This Book Brings the Offerings of the Orient to Your Door

IT enables you to rest comfortably at home in your easy chair, and, at your leisure, select by mail, with absolute confidence, from the largest collection of Oriental goods in America, presented by an establishment which for over half a century has been the headquarters in this country for the best the Orient produces.

Wander then, in fancy, through the Orient,—that land of sunshine and flowers, of quaint people and strange customs,—whose products we illustrate on the pages following, and view the pretty and practical objects of art and utility created by the artisans of the Lands Across the Seas, mindful always that "If you buy at Vantine's you will be proud to say so."

No. 7813

No. 13316

The toys of the Orient are unlike the every day toys of a child — perhaps because of a certain comical humor or an appeal to the imagination, perhaps it is just because they come from a land of such happy children that they have about them an indescribably appealing charm; at any rate, children adore them, from the fierce yellow tigers to the gentle, though insufferably proud, lucky dogs. On this, and the 16 pages following, we illustrate the greatest variety of toys we ever imported.

(Description of Toys illustrated on page 4)

ON the opposite page we illustrate in actual colors an additional variety of Japanese Wooden Toys which will indicate the versatility of the Orientals in creating amusing playthings for children. Each of the toys shown is carefully made by hand, realistically painted and is sure to amuse the little ones. Lack of space makes it impossible to illustrate in colors all the toys we import, but those on the following pages are as equally attractive as those shown in color, and are sure to be appreciated by the little folks. Each toy is packed in the same individual box that it is placed in when shipped from Japan and is forwarded prepaid—when the order amounts to \$1 or more—with the Vantine guarantee of safe delivery. **If your order amounts to less than \$1 be sure to allow sufficient money in your remittance to cover postage.**

The object of Vantine's Oriental Perfumery Laboratory is to do things differently—to get away from the perfumes that have to do with violets, roses, and familiar flowers. All the world has made perfumes with these odors, some with fair success, most with apologetic failure and full of lithographic triumph and laboratory dross. We have gone far afield to the lands of frankincense and myrrh, and from the materials obtained created the popular Vantine Oriental Perfume and Toilet Requisites which are the favorites of discriminating American women.

Footwear

from the Orient

ORDERING footwear by mail from Vantine's is as satisfactory as personally selecting in our store, if when sending your order you will simply send us an outline of the foot for which the slippers, etc., are wanted. To do this place the foot on a piece of white paper and, while seated, trace the foot's outline with a sharp pencil. Enclose this tracing with your order and be sure to state the color, and when ordering fur sandals and slippers state the fur desired.

We cheerfully exchange slippers, sandals, etc., if when received size you order does not fit perfectly, provided, of course, your purchase is returned to us in a saleable condition within a reasonable length of time.

ORIENTAL DELICACIES

THE old saying that "one-half the world does not know how the other half lives" is peculiarly appropriate when applied to the relishes and dainty eatables of the "Far and Near East."

So many tempting and toothsome tid-bits never or seldom leave the country of their origin, that unless one has traveled abroad and has permitted one's curiosity to overcome a sense of apprehension, one is very apt to remain in ignorance of many delightful treats.

That housewife's bugbear, the getting of "something different and unusual" to lay before an expected guest, is overcome by the Oriental Store, however, for at Vantine's may be found a varied assortment of delicious Oriental delicacies, as well as many household necessities, such as teas and coffees, of which none better is to be had anywhere. And in getting these unusual dainties you may also be sure of receiving unusual and unique packages.

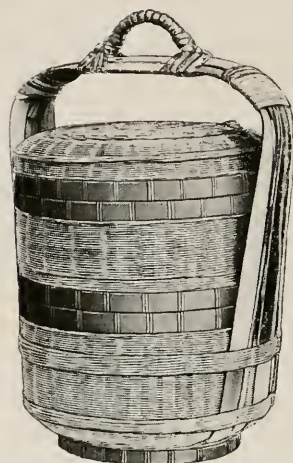

For centuries the Chinese have been famous for their preserves and relishes, among which are the always popular preserved ginger, preserved chow-chow (mixed fruits), crystallized ginger, crystallized cumquats, lychee nuts (natural), lychee nuts (preserved), etc., while India with its curry powder, Bombay ducks, chutneys, etc., is not behind the other Eastern countries in creating relishes that stimulate the appetite and appease the desire for something different.

Japan, while in the East, is in a measure apart from it, but its delightful confections, such as midzuame or rice candy, a most wholesome confection; rice bars, similar to our domestic peanut bars, but of a finer flavor; crystallized bushukan, a specie of citrus, and rice wafers, are some of the eatables peculiar to the Land of the Rising Sun.

On page 62 and the pages following (including the back outside cover), are illustrated and described a large variety of the Vantine Oriental Delicacies, and we shall be very glad to supply any further information desired regarding the new importations that are being constantly added.

As we do not prepay the transportation charges on goods of this nature, be sure to include sufficient money in your remittance to cover forwarding charges, if the articles selected are to be prepaid. Any balance will be promptly refunded.

Orders for Oriental delicacies, intended for soldiers or sailors serving abroad, will be carefully filled and forwarded promptly. Include 12 cents per pound (maximum weight allowed in one package, 20 pounds) for postage, and be sure to state name of addressee, official designation of unit or organization to which addressee belongs and the words "American Expeditionary Forces," and please order as early as possible.

Miscellaneous Oriental Delicacies

IN addition to the Oriental Delicacies illustrated on the foregoing pages, we carry in stock a large variety of sweet meats, etc., crystallized fruits, nuts, jellies, teas, etc., etc., some of which we list below. In stating the weights of all Oriental Delicacies, the figures given are for the individual articles packed for shipment (mailing), and should not be confused with the net weight or contents of each package, basket, etc. As the parcel post rates are based on the pound (not ounces) an article weighing less than one pound requires the same postage as though the package weighed the full pound. We abbreviate the words "shipping weight" by the letters S. W. on this page.

Vantine's Cotton Crepe may be used most effectively as an interior decorative scheme where the dainty designs and pleasing color combinations harmonize delightfully

Vantine's Japanese Cotton Crepe

TO facilitate the ordering by mail of Vantine's Japanese Cotton Crepe, we illustrate on page 77 reproductions in actual colors of this unique Oriental fabric, which has become so popular with American women.

The colors are the exact reproductions and you may order with the assurance that the material will be entirely satisfactory or may be returned (when ordered in quantities of five yards or more), for exchange, credit or refund.

Of all the fabrics we import, there is none more in demand than Japanese Cotton Crepe, which is woven on hand looms by Japanese girls, who dip their hands in bee's wax as they weave, to produce the desirable "crepey" effect that is characteristic of the goods.

The Japanese Plain Cotton Crepe imported by us is strong in texture, light in weight, requires no ironing and becomes "crepier" the oftener it is washed.

The dainty and artistic designs in the figured patterns are stencilled in dyes, noted for their durability, and are in beautiful, rich shades of the colors shown, while some of the patterns originated with and are confined exclusively to Vantine's.

Our Japanese Figured Cotton Crepe is 30 inches wide, and is forwarded by parcel post prepaid for 50 cents per yard; our Japanese plain crepe is 30 inches wide and is mailed prepaid for 40 cents per yard.

In addition to the colors and designs illustrated we carry in stock plain white Japanese Cotton Crepe 30 inches wide, which we can supply at 40 cents per yard, and in the finest quality at 85 cents per yard. When ordering be sure to state design number and color desired.

CANTON CHINA

EVERYBODY knows Canton China—the always popular “willow” pattern—with its pagodas, bridges, streams, boats, little figures of men and women, and the love birds. A quaint legend has it that the story depicted on the china tells how a mandarin had an only daughter, Li-Chi, who fell in love with her father’s secretary, Chang.

The mandarin forbade the match, so the lovers eloped, hiding for a time in a gardener’s cottage, until at last they attempted to make their escape to an island which was Chang’s home. The mandarin pursued them, whip in hand and would have killed them had not the gods come to the rescue and changed the two into a pair of turtle doves.

In the design will be seen the mandarin’s house with a fence round it, the gardener’s cottage, a bridge over which the mandarin ran after his daughter, who, with a staff in hand, was accompanied by Chang. Above are the turtle doves, and beyond is a boat crossing to the island. At the time of the elopement the willow was shedding its leaves, hence the name of the design.

For over half a century Vantine’s has been the headquarters in this country for Canton China, and in no other establishment in the United States may be found such a complete assortment as we always carry in stock.

If You Had a Friend in the Orient—

And wanted to make a most unique gift—away from the common-place domestic article—you would write your friend to select something unusual and have it forwarded in all its original Oriental wrappings to the person for whom it was intended.

We are your friend in the Orient.

For the gift season we have imported a number of quaint Vantine tea sets, made and decorated under our supervision in Japan by the greatest ceramic artists of the present day. The designs, colorings and ware, selected by us with special reference to refined American tastes, are shown on this, the two preceding pages and in our Tea Set Booklet which is free for the asking.

To add to the Oriental effect, for presentation purposes, we have had these Tea Sets packed individually in our studios in Japan, as shown in the illustration to the right. The quaint, thorough straw packing and the Japanese boxes are left intact, just as they arrived from the ship—the recipient thus receiving in reality a gift direct from the Orient. When desired, the lid will be lifted sufficiently to insert the card of the donor, but in ordering, kindly instruct us on this point. Each set forwarded prepaid at the price advertised, with our guarantee of safe delivery or the replacing, free, of any piece received damaged.

Antimony Ware

ANTIMONY is a wonderful imitation of silver, so perfect that it is almost impossible to tell the two apart. Its cost, however, is trivial as compared with "plated" silver and considerably less than the price of solid silver. It has the appearance of the best hand-beaten silverware, and retains its silvery finish indefinitely.

The inexpensiveness of antimony and its wonderful durability make it especially adaptable for use in the home, where it will be found to be useful as well as ornamental.

All of the articles of this ware imported by us are artistically decorated with beautiful and original Japanese designs in repousse, and include, in addition to the articles shown, candlesticks, vases, jewelry boxes in a variety of shapes, trays, etc., prices of which we shall be pleased to furnish upon request.

Chinese hand-carved blackwood furniture—commonly known as Teakwood—is made from one of the most valuable timbers produced in the East. The wood grows in the mountains of Siam and is exported to China. In Canton and Hong Kong it is manufactured into various articles of furniture, such as chairs, tables, stands, cabinets, etc., by artisans who put their very best effort into their work. The natural color of this wood is similar to mahogany, but in the process of manufacture the tone is changed to a dull black or medium red. In no other establishment in this country may be found such a comprehensive assortment of this artistically designed craftsmanship, included in which are numerous designs of stands, tables, chairs, etc. Upon request we will promptly submit photos and any further information desired.

Canton Furniture

FROM the luxury-loving Far East comes this artistic example of Oriental craftsmanship—Canton Rattan Furniture—suggesting in its every line fireside comfort and restful repose. Graceful in design, sanitary in construction and moderate in price, it is the ideal furniture for bedroom, sitting room, library or den.

Woven by hand, without a visible nail in its entire construction, chairs, stools and tables of this quaint Oriental product may be placed on a highly polished floor, rug or carpet without any fear of scratches or marking. It harmonizes wonderfully well with furniture of severer lines and because of its lightness may be frequently moved with only the slightest exertion. (Inverted, the tables may be used as laundry hampers, while the stools, when used as in the manner suggested, make unique waste baskets.) Unlike any other furniture it is unaffected by the elements and in summer the chairs, tables and stools in the "hour-glass" designs may be placed on the lawn as satisfactorily as on the porch, as they have no legs to sink into the earth.

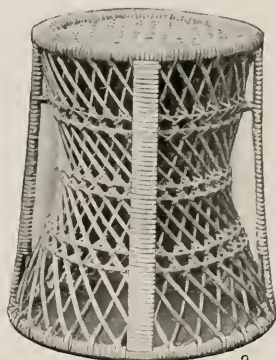

We do not prepay the transportation charges on Canton Furniture, but owing to its light weight it can be shipped at very little expense. Full information regarding express and freight charges will be promptly furnished if desired.

Japanese Foot Warmer (or Trench Stove)

No. 9966. A simple, practical device for heating automobile, carriage and sleigh during cold weather. Is an admirable bed-warmer and far superior to a hot water bottle for medicinal purposes, remaining hot throughout the night without refilling. Invaluable in giving relief from neuralgia, rheumatism and kindred complaints, and particularly adaptable for use in trenches, tents, etc., as it is light in weight (weighs about one pound); small in size, $2\frac{1}{2} \times 5 \times 9$ inches, and burns a smokeless, blazeless, odorless fuel, one tube of which will last from six to ten hours. Made of heavy reinforced tin and covered with navy blue velvet, with perforated center compartment in which fuel is burned. An absolutely harmless invention with nothing to get out of order and practically indestructible. To use, simply place one or two tubes, as may be desired, in the center of the warmer, light wick or fuse at the end of the tube and place cover on tightly. If a strong heat is required, wrap warmer in a cloth.

Foot Warmers intended as gifts for American soldiers in Europe will be forwarded, prepaid, direct from New York if desired, but in ordering be sure to give name of addressee, official designation of unit or organization to which addressee belongs and the words "American Expeditionary Forces."

Price prepaid, including 25 fuel tubes, \$1.75

Japanese Hand Warmers (or Pocket Stoves)

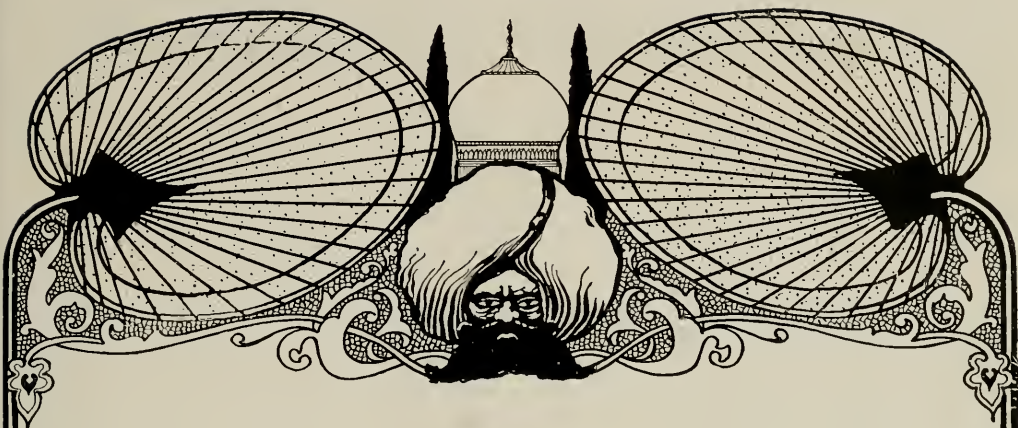

The Kairo (Hand Warmer) or Pocket Stove has been used by the Japanese for many years. Though called a Hand Warmer, it has many other virtues, being used for neuralgia, rheumatism, faceache, etc., where the larger warmer would not be so practical. Because of the compactness of the warmer and the light weight of the fuel, which is the same as that used in the foot warmers, these also would be most appropriate gifts for a soldier. Each Hand Warmer comes complete with 2 packages of fuel (a package burns about three hours).

No. 10354. Japanese Kairo or Hand Warmer. Made entirely of copper and covered with velvet. Size $4\frac{5}{8} \times 2\frac{3}{4} \times \frac{7}{8}$ inch. Shipping weight 1 pound. **Price each, 50c.**

No. 10353. Japanese Kairo or Hand Warmer. Made of tin, has copper cover covered with cotton brocade. Size $4\frac{5}{8} \times 2\frac{3}{4} \times \frac{7}{8}$ inch. Shipping weight 1 pound. **Price each, 35c.**

No. 10352. Japanese Kairo or Hand Warmer. Made of tin, with copper cover covered with green velvet. Size $4\frac{5}{8} \times 2\frac{3}{4} \times \frac{7}{8}$ inches. Shipping weight 1 pound. **Price each, 25c.**

Oriental Rugs

FOR ages Oriental Rugs have occupied the place of honor in palace and in temple, and their popularity for centuries, their hygienic and high art value make them something more than merely fabrics. Aside from their great artistic merit, the use of Oriental rugs permits a much wider range for the exercise of personal taste, and their great durability commends them most highly from the standpoint of economy.

It is, however, the popularity of Oriental Rugs that makes it imperative for purchasers to exercise the greatest care in making a selection, being careful to buy only from houses of long standing in the Oriental Rug trade.

Over half a century ago the firm of VANTINE & COMPANY, Inc., imported the first rugs brought to this country, and by specializing in genuine Oriental fabrics, etc., became universally known as "THE ORIENTAL STORE."

The staff of VANTINE representatives in the Far East previous to the beginning of the European war were constantly on the alert for the latest products of the weaver's art, and being continually "on the ground" were enabled to secure first selection at all times.

In buying direct and selling direct, therefore, we offer Oriental rugs—as well as all other products of the Far East—at the lowest possible prices, and quality considered no rug can be bought from any dealer at a less figure.

Each and every rug sold by us is backed by the VANTINE reputation, which for over half a century has stood for all that is reliable and trustworthy—a point well worth considering in purchasing Oriental Rugs.

For the convenience of our out-of-town patrons we maintain a Personal Service Bureau, through which rugs may be purchased from us by mail with the same assurance of satisfaction as if personally purchased in our store. Send us your order, simply furnishing a description of the rug you desire, stating approximate size and the price you wish to pay. We shall exercise our discretion and fill your order in a manner which we know will meet with your complete approval.

Oriental Draperies

In addition there is a collection of oddities in designs and weaves from the Orient, marked for an individuality and harmonious beauty that is seldom found in the products of the far-away East.

Ivories

NO handiwork of the Far East shows more remarkable ingenuity than the wonderful ivory carvings to be found exclusively in the Vantine collection. In Japan, China, and India, ivory carving is an art that has been cultivated for years. The Bombay carvers borrowed the art from the ancient Persians, but it remained for the clever Japanese to show a power of representing animal life and a dexterity in inlaying ivory with gold, silver, and other metals, probably never surpassed. Indeed the art of the Chinese and Japanese is grotesque, but their power of hand has no equal in ancient and modern times.

Among the many exquisite pieces of ivory to be found in the Vantine store may be mentioned a large variety of original designs in figures, animals, groups, etc., at from \$10 up; effective cabinet carvings, \$2.50 to \$75; elephants, \$1.50 up to \$35; photo frames, \$6 to \$35; cabinet pieces, \$6 to \$200; jewel boxes, \$50; dressing combs, \$7 and up; shoe horns, \$2.50 and up; hair brushes, \$8.25 to \$40.25; military brushes, \$16.75 to \$40; hat brushes, \$4 to \$30; clothes brushes, \$4.25 to \$30; mirrors, \$11.25 to \$87.50; powder boxes, \$13 to \$75; nail brushes, \$5 to \$7; files, \$1 to \$12.50; and cuticle knives, \$1 to \$2.

We shall be pleased to supply full information regarding any piece of ivory, plain or carved, in our stock and, where possible, furnish photographs

Bronzes

BRONZE is the metal in which Japanese art was winning its brightest laurels over a thousand years ago. Its chief forms in those days were the mirror, the temple bell, the gong, the vase (which was originally intended to adorn the altars of Buddha's images,) the lantern, and the colossal representation of divine personages. The last two hundred years, however, have been the most fruitful epoch for the production of small bronze objects, whose chief raison d'être is ornament.

Vantine's early recognizing the increasing demand for this popular product of the East, exert a special effort in collecting unique shapes and beauties of the newer specimens produced by the artists in the land of the Mikado. The Vantine wax mould bronzes represent the highest degree of Japanese art, each being the result of an individual mould which was destroyed when the piece was completed.

In our collection of bronze vases are vases from \$10 up; an almost unlimited collection of Koros (incense burners) at \$3.50 to \$150; umbrella stands, \$18 to \$75; jardinières, \$18 up; figures, such as warriors, idols, birds and animals, at \$7.50 to \$200.

Of any piece of bronze in our collection we shall gladly send full particulars accompanied, when possible, by photographs

Dainty Japanese Toweling

JAPANESE Toweling or "Tenugui," as it is known in Japan, is an interesting Oriental fabric of white hand-twilled cotton with a linen finish, on which are hand-stencilled patterns of rare and artistic designs in pretty shades of blue. In the Orient it is used for drying the face and hands after ablution, so when lifting a towel to his face the native beholds some fair scene that reminds him either of the beauty of his country, the habits of wild life, or the history of the race from which he sprung.

The American housekeeper, however, ever alert for any distinctive and individual fabric that will increase the attractiveness of her home, immediately realized the possibilities of this quaint Oriental creation, and it is really astonishing what a vogue Japanese Toweling now has. It is a most fascinating fabric to work with, for somehow it suggests uses to which one would never have dreamed of putting it. Aside from its use in the dining room, as shown in the illustration above, it is also used extensively in bedrooms, where its artistic designs lend themselves to the making of bedspreads, upholstery covers, dresser and chiffonier scarfs, couch covers, laundry bags, etc.

Japanese Toweling is best understood when one is acquainted with the history of the Japanese, their folk-lore, their symbolism, their pet ideas and cherished traditions. The plain unpainted cup will hold tea, a screen without the adornment of beautiful landscapes, exquisite flowers or bewitching faces or figures will answer the purpose for which it was made, but in the mind of the Japanese everything must be beautiful. The commonest utensils are artistic in shape and charming in decoration—a single flower, a solitary leaf, a trailing vine, a bird, a butterfly—something each article must have. This principle extends even to the popular "Tenugui" or Japanese towels.

Our stock of Japanese Toweling, of which we show 12 designs in actual colors on the opposite page, is the largest to be found in America, and includes numerous designs to be had in no other establishment.

Vantine's Japanese Toweling is 12 inches wide and is sold only in bolts containing ten towels (or yards). It is impossible, therefore, to supply samples without destroying a complete design, but we shall cheerfully accept for exchange or refund any design selected, which when received does not meet with complete approval.

Howo Chinaware

HOWO" Chinaware is Japanese ware, pleasing in design and very serviceable. Ever since Chinaware has been known, its dainty color scheme of blue and white has been much admired. By applications of modern science it has been made particularly strong and durable, and is therefore suited to everyday use. It is said when the "Howo" bird descended from Heaven, there appeared a Wise Man who ruled the country so peacefully that the peasants enjoyed abundant harvests, which spread happiness throughout the land, filling the hearts of all the Japanese people with joy and gladness. In Japan this design is generally called "Howo Moyo"; this is combined with "Kiku" or "Chrysanthemum," which is the Queen of Flowers and the Emperor's Crest or Coat of Arms, and representative of the Japanese nation. It is of ancient, historic origin and very unique.

Sedji Chinaware

SEDJI WARE is Japanese china of a delightful shade of green, and closely resembles ancient China "Celandon," or color of the sea from which it takes its name. This ware is held in the highest esteem by the Japanese people, who are experts in the selection of artistic porcelains. The shapes, beautiful in their simplicity, are covered with a satiny glaze that is blown on a pure white body, resulting in a dainty table service that is both distinctive and moderately priced. For presentation purposes as well as for personal use there is nothing more practical and pleasing than this delightful chinaware from the Land of the Rising Sun.
